Judy Onofrio: Bejeweled Terminal C

Sculptor Judy Onofrio has been a fanatical collector of objects since she was a child. From her earliest days of combing beaches for seashells to her regular visits to flea markets and yard sales, Onofrio has been stockpiling found objects for over 30 years. Her sculpture is the culmination of her obsessive collecting where every surface is lavishly embellished with thousands of objects such as shells, beads, costume jewelry, mirror, tiles, keys, and paperweights.
